

# TRAINING PROGRAMME ON PRODUCTION OF SMALL SCALE WIND TURBINES AND WIND-SOLAR HYBRID TECHNOLOGY

## Practical modules of the training programme

- \* Production of Small Scale Wind Turbines
- \* Installation of solar panels and related equipment for power generation for industries and home use (off-grid and on grid net metering systems)
- \* Water pumping by incorporating solar and wind power through hybrid technology

The above Project is implemented by Sri Lanka Ecotourism Foundation (SLEF) and Solar Sri Lanka with the technical support from EOL ECOLE of France and the Hettigoda Energy Technologies

Venue and location of the Training Programme: SLEF Head Office Complex, 15/16 Madapatha (Kesbewa Piliyandala)  
Medium of instructions; Sinhala/English  
Duration of the Programme; 2 (two) weeks  
Commencing on; 2nd week of March, 2018 (exact date will be notified later)  
Course Fee; Rs.25,000/= per participant

**Only a limited number of participants will be enrolled and registered on first come first serve basis**

**REGISTRATIONS NOW OPEN**

**All Participants are awarded with an internationally recognized Certificate**

**All inquiries: Sri Lanka Ecotourism Foundation**
